

Attention Dawson Residents,

8/11/2026

Tonight's meeting will be rescheduled due to an agenda that was posted on Thursday at 9:30 am rather than 5:00 pm on Wednesday. This oversight on our part was justifiably caught and brought to the attention of the city council by an outside entity.

To continue with the meeting scheduled for today would put the city in violation of the Texas Open Meetings Act and would subject the city to potential litigation.

Furthermore, there is currently speculation that the city is being fueled that the city acted in a duplicitous manner to prevent discussions around the Nexus data center in Hubbard, TX. To be clear, the council's exclusive intent was and remains, to attain information regarding the impact on residents so that we can insulate accordingly.

The lifestyle that Dawson residents have enjoyed for decades will be impacted by the arrival of Nexus. You, like the council, deserve to be informed regarding the intentions of the data center in our backyard. Please be on the lookout for the next meeting and tell your neighbors.

From City of Dawson
